Synopsis

On

<<*Title of the Project*>>

1. Introduction

1.1 Overview

A brief description about the project.

1.2 Purpose

The use of this project. What can be achieved using this.

2. Literature Survey

2.1 Existing Problem

Existing approaches or methods to solve this problem

2.2 Proposed Solution

What is the method or solution suggested by you?

3. Theoretical Analysis

3.1 Block Diagram

Diagrammatic Overview of the project.

3.2 Hardware/Software Designing

Hardware and Software requirements of the project.

4. Applications

The Areas where this solution can be applied.
